

# ALL STAR CODE

## PITTSBURGH

**All Star Code** empowers high school boys of color with the skills, networks, and mindsets they need to create new futures through technology.

## THE SIX-WEEK SUMMER INTENSIVE PROGRAM\*

<b>Host Site</b>	<b>Computer Science</b>	<b>All Star Skills</b>	<b>Mentorship</b>
Top universities, tech and innovative companies host our students who become members of their communities.	Students learn Basic CS, JavaScript, CSS, HTML, Game Design, Web Development, and Databases.	Students create a resume and LinkedIn profile, explore Networking, Public Speaking, and Mock Interviewing.	Mentors from their host sites meet weekly with students to reinforce All Star Skills and to talk about their futures.
<b>Guest Speakers</b>	<b>Site Visits</b>	<b>Health &amp; Wellness</b>	<b>Demo Day</b>
Tech professionals visit the classroom to share their experiences, failures, and successes with the students.	Students have private tours at tech companies and participate in panel discussions with industry professionals.	Students experience team building and physical activity sessions, and learn tips of self-care.	The culmination of the program, students present the App they created to their families, guests, and new networks.

\*Upon completion of the Summer Intensive students become members of the national All Star Code Alumni Network.
